Dear little May Bell, I love you so well I believe I can love you no better; And to let you know that it really is so,

I write you this little love letter. You sweet little pet, I shall never forget The first time I gazed in your features: so sweet and so fair I was forced to declare You were one of God's dear little creatures.

O! the joy that I felt, as on one knee I knelt, When May Bell came running to meet me. And O the sweet bliss of that innocent kiss, And the willing embrace that did greet me!

As your ringlets of gold oft escaped the fold Of a hat that neglected its duty, So the beams of the sun had just kissed you "for fun,"

THE EXCITING CONTEST OF THE FOURTH PRESIDENTIAL ELECTION—BURR ELECTED VICE-PRESIDENT.

Soon after Burr turned politician his wife's health began to fail, and at last a cancer was the result. He asked advice of the best physicians, but nothing could stop the progress of the disease. He thought at one time he would leave Congress and wait upon her exclusively, but she desired him not to do so. "She became at length, an object most pitiable to contemplate; and in the spring of 1794, death relieved her sufferings. Shortly after leaving the Sanate, Burr was elected to the State Legislature. He fixed upon a list" of his own friends, who had not much power in the city. Burr immediately obtained one of these lists and read it over. In a moment the means of carrying the city flashed on his mind; "he proceeded forthwith to execute the scheme." His plan was to prepare a list of the most influential men in the city as candidates for Assembly. The men at last decided upon were George Clinton, long the Governor of this State; General Horatio Gates, the conqueror of Burgoyne; Samuel Osgood, a man who had After changing into a chrysalis, it re- been a member of Congress, and Washington's Postmaster-General; Brocholst Livingston, a very eminent lawyer, and afterwards judge of the Supreme Court of the United States; John Swartwout, a great friend of Aaron Burr, and seven others of less importance. Where is the West.

The West is ever-receding, like the

North. It is not very long since Massachusetts men called a railroad, which begins forty four miles west of Boston the Western. After the Revolution, the first West was New York, beyond the Dutch on the Mohawk. Then it was the the "Western Reserve," about Cleveland. Next it was Indiana, the Illinois. When the Erie Canal opened in 1825, it was Michigan, next Wisconsin and Iowa. Slavery agitations revealed another West in Missouri, Texas and Kansas. But all these wests, if rolled into one, are smaller than the newest West which we owe to the trans-continental railroad. This West stretches from torrid to frigid zones having California in its ocean center, and to the house of correction for six months and ordered to find bail in the sum of having long gravitated irresistibly to \$1,000 each, not to violate the law for that latitude, and that that route was one year. Letter from Miss Long.

ROCHESTER, Aug. 4th, 1873. ED. INDEPENDENT—Dear Sir: The brief interval before the train time, when I saw you on Friday last, allowed no opportunity to explain the special object of my call, which was to promote the organization, in Mexico, of a Local Visiting Committee for visiting the County Poor House and Lunatic Asylum in your vicinity, auxiliary to the State Charities Aid Association of New York.

This Association is seeking to promote, in whatever way it can, through the agency of such Committees, the benefit of our public institutions of charity, of their inmates, and of our general system of public charity.

Such a Committee was successfully organized in Oswego, for visiting the Poor House and Jail in that city, and it is desired, both by ourselves and the Oswego Committee, to complete the work in the county by the formation of a similar Committee in Mexico, either as independent or as a separate Committee in the Oswego Association.

These Visiting Committees are now increasing quite rapidly through the State, there being a very ready and general interest manifested in the proposed work by the community generally, and not less by the officials in charge. Especially does the latter statement hold true in Oswego city and county, where such effective measures have already been taken in the direction of improvement and reform, the keepers of the institutions at Mexico cordially expressing their readiness to aid such a Committee all in their power, should one

be organized in Mexico. The visits made to the above institutions were most gratifying, not only on account of the wonderful cleanliness and order, visible to their remotest corners, and known from outside testimony to be their uniform condition, or of other arrangements and regulations for warmth, heat, ventilation and personal cleanliness. but also by reason of results attained here in the direction of certain reforms which our Association is laboring to effect. One of these is the removal of children to more suitable houses, where, free from the example and influences of zens, instead of recruits in the increasing

ranks of hereditary paupers; another, House to an appropriate Asylum, where most enlightened and humane principles of treatment; and still another, in the disappearance of the idle, able-bodied pauper, that infests many similar establishments. One cause of the latter condition, it was pleasant to learn, is due to the enlightened views and philanthropic spirit of the Superintendents, who take and assistance, in all coming under their part to avoid a condition of dependence. Another means resorted to here, as well as elsewhere, to free the county from the incubus of able-bodied pauperism, is the shipping of vagrants to some point out intendents, amounting sometimes to \$2,000 in a year. Just here is needed one of our hoped-for reforms, to be brought about through an enlightened, active public sentiment, that shall demand it, which is the erection of a sufficient number of Work Houses in the State, at proper localities, for the accommodation of the army of "tramps," where public expense, and be required to earn their own living, until they acquire the ability and disposition to do this volun-

Through such a Committee, also, the improvements so successfully accomplished here, can be made more effective in encouraging and stimulating others to the same results.

FINE WORKMANSHIP .- G. W. Pruyne has just made a beautiful nickel-plated carriage harness for S. N. Gustin, which is probably the finest ever manufactured in this village. Mr. Pruyne could hardly make a poor harness if he tried, and it is no wonder that, in order to fill orders, he is obliged to work early and late.

PARISH.

Rev. A. P. Burgess lectured on temperance at the church, August 1st. This is the first regular temperance meeting held at the church within five years past. Formerly all the temperance meetings were held there. Rev. Mr. Munger suggested the idea, and it was acceded to generously. Fraternal regard will accomplish almost every thing that is good.

We mentioned some time since the beautiful Chester white pigs owned by Benjamin F. Green to James P. Jacobs | Captain Boyd, of this place, the pigs are now seven months old and beautiful yet. The Captain intends to exhibit them at the County Fair at Mexico, this fall, with their litter of seven pigs, now about a week old. These small pigs will be for sale. It is not difficult to make such pigs weigh 300 pounds when six months old. It will richly pay the farmers to take a view of these pigs and purchase.

Don't fail to observe them at the fair. Rev. Mr. Munger has delivered two discourses on Natural Theology, and will deliver more. We are glad he is doing so. He is calling the congregation into a new train of thought and reflection. As a general thing there are too few ideas thrown out from our pulpits, and as a consequence society is too barren in ideas. Natural Theology opens a wide field of investigation, and it is remarkable that PENDENT. so few enter that field. If we would read God as depicted in the universe, we would have enlarged views of his power and goodness. The positions that the Elder takes are generally sound. Heenters but very little into disputed points, as for instance, matter, whether it was eternal or created out of nothing. He however, remarked that God was not physical form like unto man, he was a spirit and therefore was not necessarily material If God was personal and eternal, we should naturally infer that matter always existed, for according to our observation, one kind of matter is dependent on other far as we are able to learn spirit always manifests itself through matter. It may Spirit and matter are not the same, but In the Elder's discourse last Sabbath evening, he denounced modern spiritualism spiritualists will not be offended at this, vagaries in other peoples' religious beliefs. Calvinism and Arminianism hold each in modern spirit communication there was no authority. Ordination at Ellisburg-

An interesting two days meeting was hdd at the Universalist church at Ellisbirg, Jefferson Co., on Wednesday and

Tiursday of last week.

On Wednesday two very able and instructive sermons were preached by Rev Asa Saxe, D. D., of Rochester. Rev. James Vincent, of this village, preached on Thursday morning. All these services were attended by large and attentive conregations. But the largest and most nteresting meeting of the series was that held on Thursday afternoon for the purpose of ordaining Wm. S. Goodell, of this town, to the office and work of the Christian ministry.

The sermon by Dr. Saxe was based apon the words of Christ,"I am the vine, ye are the branches," and was a strong, ing at North Mexico, at 12 o'clock next clear statement of evidences that go to prove that the Christian religion is the life and and motive power of all the no-

blest institutions of the civilized world. The concluding exercises of the ordination received an added interest from the brave, Christian act of a resident Methodist minister, Rev. Elisha Wheeler, who tute is to be held in this village. It will took part in theservices, and, with words begin September 22d and continue two that were earnest, cloquent and impressive, gave the charge to the candidate

and delivered to him the Scriptures. It cannot be otherwise than that the results of the meeting will be good. Another worker has entered the regular ministry of the gospel of Christ; a spirit of Christian brotherhood will more closely unite the people of the entire community; and encouragement will be given to a growing society, inspiring it to earnest Christian effort, leading to assured suc-J. PERRY DAVIS' PAIN-KILLER

HAS been tested in every variety of climate, and by almost every nation known to Americans. It is the constant companion and inestimable friend of the missiouary and the traveler, on the sea and land, and no one should travel on our Lukes or Rivers without it.

Since the PAIN-KILLER was first introduced, and met with such extensive sale, many Liniments, Reliefs, Panaceas, and other Remedies have been offered to the public, but not one of them has attained the truly enviable standing of the PAIN-KILLER.

Why is this So. It is because DAVIS' PAIN-KILLER is what it claims to be, a Reliever of Pain.

Its Merits are Unsurpassed. If you are suffering from INTERNAL PAIN Twenty to Thirty Drops in a Little Water will almost instantly cure you. There nothing to equal it for

arrhea, Dysentry, Flux, Wind in the Bowels, Sour Stomach, Dyspepsia, Sick Headache, &c. In sections of the country where

Fever and Ague prevails, there is no remedy held in greater esteem. Persons traveling should keep it by them. A few drops, in water, will prevent sickness or bowel troubles from change of water.

From foreign countres the calls for PAIN-KILLER are great. It is found to Cure Cholera when all other Remedie

Fail.

WHEN USED EXTERNALLY AS A LINIMENT, nothing gives quicker ease in Burns,
Cuts, Bruises, Sprains, Stings from Insects, and
Scalds. It removes the fire and the wound
heals like ordinary sores. Those suffering with
RHEUMATISM, GOUT, or NEURALGIA,
if not a positive cure, they find the Pain-Killer
gives them relief when no other remedy will. It gives instant relief from Aching Teeth Every House-Keeper should keep it at hand, and apply on the first attack of any Pain. It will give satisfactory relief, and save hours of suffering.

timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

Drawing of J. Edwin Story's Oil Painting.

The drawing of numbers for J. Edwin Story's prize oil painting, "Struggle of Cavalry near Gettysburg," took place at the office of the Justice of the Peace in Cherry Valley, N. Y., on the after-noon of July 31st. Mr. John C. Streeter, of Watertown, whose ticket bore the lucky number, won the splendid picture. We have not learned how many tickets have been sold in addition to those previously stated, but we think we are not mistaken in saying that Mr. Story has probably realized a satisfactory (if not a very handsome) recompense for his artistic skill and persevering task.

Correction.

A few weeks ago we stated in our Journal that the Silent World was a smaller sheet since its re-issue than formerly. We discover our mistake and acknowledge our error. Its small type gave us naturally that impression, and in our haste to go to press we did not have much time to scrutinize closely the Silent World, and we now take pleasure in retracting our rather too hasty decision, and would add that we are happy to state that the paper is re-issued apparently under very favorable prospects of success.

There they huddled together, the Lake Ontario Shore RR., and the Sodus Point & Southern RR. The Erie Railway, we are sorry to say, cannot comply with our request, owing to an agreement entered into by the Trunk Lines. We have written to the Gen'l Passenger Agent of the N. Y. C. & H. R.
